

CRIMSON DAWN - CLOUD STENCIL SHEET

Gothic imperial storm-cloud | Print at 100% (no fit-to-page)

How to use

1. Print this PDF at actual size (100% / turn OFF fit to page).
2. Cut out a cloud silhouette with a hobby knife, or load the PNG from docs/warhammer/stencils/ into a vinyl cutter.
3. Apply the mask to the RIGHT shoulder pad (gloss varnish first helps).
4. Sponge or stipple deep crimson through the opening; remove mask.
5. Freehand a thin white outline around the cloud if desired.
6. Seal with matt varnish.

Tip: Terminator and tactical pauldrons are curved. Cut small relief slits at the mask edges if needed, or paint in two light passes.

Colour reference (not a stencil)

Target look: deep crimson fill, thin white outline, on charcoal-black armour. Stencil provides the crimson shape only.

Cut stencils - infantry sizes (black = keep mask / cut out interior)

Terminator pauldron
(~)
14 mm

Terminator small /
veteran
11 mm

Tactical / Primaris
pauldron
9 mm

Knee / detail
6 mm

CRIMSON DAWN - EXTRA CUTS / VEHICLE

Larger marks (vehicle, banner, practice)

22 mm wide

28 mm wide

36 mm wide

Squad strip - repeated Terminator size (cut several)

Source badge and cut-ready PNG also live in docs/warhammer/ (crimson-dawn-gothic-cloud-source.png and stencils/cloud-stencil-fill.png). For vinyl cutters, trace the black silhouette.
